

BLIND JACK

Marc Méra
Nicolas Méra
Alexis Leclercq
Maxime Turrière

2 tokens
1 card shoe
200 cards

SPOILER ALERT

Do not turn over the cards before playing.....

All the cards are **questions**, the **answer** to which - indicated on the back - is a value **between 0 and 10!**

EASY TO USE

Place your cards diagonally in the shoe, question side facing up...

At the end of the game, slide the cards already played to the back of the shoe, answer side!

Objective Estimate answers and get close to 21 without going over !

Setup

- ➔ Make **two teams**.

Note: we recommend teams of 3 players max. Beyond that, make more teams.

- ➔ Take **20 cards** from the shoe, shuffle them and place them in a single pile, between the two teams, question side visible.

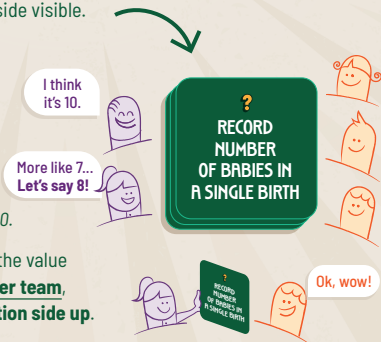

Round Sequence

The team that shuffled starts.

- 1 They read the question at the top of the pile and give an **estimate** of the answer out loud.

Reminder: it's a value between 0 and 10.

- 2 Then they take the card, show the value on the answer side **only to the other team**, and place it in front of them, **question side up**.

The round continues

with the other team.

They do the same steps with the new question from the top of the pile.

- 1 They **estimate** the answer.
- 2 They **show** the answer and place the card in front of them.

?
RECORD
NUMBER
OF BABIES IN
A SINGLE BIRTH

?
NUMBER
OF COLORS ON
SUPERMAN'S
COSTUME

I'd say 2.

No, 4!

Let's say 3.

Got it!

?
NUMBER
OF COLORS ON
SUPERMAN'S
COSTUME

Next rounds

→ Each team **adds up the estimates** of the cards they take.

We say 10
for the giraffe.

We think we
have 18 in total.

?
RECORD
NUMBER
OF BABIES IN
A SINGLE BIRTH

?
NUMBER
OF BONES IN
A GIRAFFE'S
NECK

?
NUMBER
OF COLORS ON
SUPERMAN'S
COSTUME

→ **From the third round**, a team can also **refuse to take the card** from the pile and stop for good.

Whoa, that's at
least 6 seasons...

18 + 6 would
make 24. **Let's stop!**

?
RECORD
NUMBER
OF BABIES IN
A SINGLE BIRTH

?
NUMBER
OF BONES IN
A GIRAFFE'S
NECK

?
NUMBER
OF SEASONS
OF GAME OF
THRONES

?
NUMBER
OF COLORS ON
SUPERMAN'S
COSTUME

?
NUMBER
OF TOPPINGS
ON A HAWAIIAN
PIZZA

→ When one team stops, the other team continues with **the same question**.

?
RECORD
NUMBER
OF BABIES IN
A SINGLE BIRTH

?
NUMBER
OF BONES IN
A GIRAFFE'S
NECK

?
NUMBER
OF SEASONS
OF GAME OF
THRONES

?
NUMBER
OF COLORS ON
SUPERMAN'S
COSTUME

?
NUMBER
OF TOPPINGS
ON A HAWAIIAN
PIZZA

I'd even say
8 seasons...

That would
add up to 15...

Go for it!

End of the game

The game ends as soon as both teams have stopped.

The team that stopped first then turns over all its cards and **adds up their real value**. Then, the other team does the same.

Team 1 (Purple):

- RECORD NUMBER OF BABIES IN A SINGLE BIRTH: 9
- NUMBER OF BONES IN A GIRAFFE'S NECK: 7
- Total: 16**

Team 2 (Orange):

- NUMBER OF COLORS ON SUPERMAN'S COSTUME: 3
- NUMBER OF TOPPINGS ON A HAWAIIAN PIZZA: 4
- NUMBER OF SEASONS OF GAME OF THRONES: 8
- MAXIMUM DURATION OF A SOLAR ECLIPSE IN MINUTES: 7
- Total: 22** (Warning: Exceeds 21)

The team with the total of real values **closest to 21, without going over, wins the game!**

*In case of a tie, both teams win.
If both teams exceed 21, both lose.*

Want to play a series of games? Try the **Super Blind Jack!**

- ➔ Loss: Score **0 points** if you went over 21 or **1 point** if you remained under.
- ➔ Victory: Score **2 points** or win immediately with **exactly 21!**

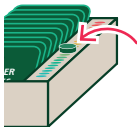

The first team to score **3 points** (or hit exactly 21!) wins Super Blind Jack.
In case of a tie, play one last game to decide.

Card statistics

9 times values 0 and 10
18 times values 1, 2, 8, 9
22 times values 3, 4, 5, 6, 7

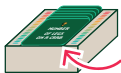

Average value of a card **5**

Tip 1

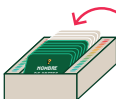

To easily track each team's total estimates, you can use the **2 tokens** to move along the **scales from 1 to 21** in the box.

Tip 2

You can also play directly **in the box** by just raising the first card **horizontally**.

Tip 3

To play your next games with new cards, **turn over the played cards** and **slide them to the back** of the shoe.

Sources

All data used in **Blind Jack** has been carefully researched. In some cases, it has been rounded to the nearest possible value for the needs of the game. Are you interested in a particular fact? In general, you can easily find out more with a simple internet search. When this is not the case, it is because we have delved into articles or databases from reliable and recognized sources (UN, BBC, Britannica...).

However, if you think you have found an error or if you would like to suggest other questions, you can write to us at **bandjo@blueorangegames.eu!**

Acknowledgments

The authors would like to thank their editor, whose IQ also corresponds to a value between 0 and 10. Kan u gess it? It's no difficult, he wrote this sentence!
